Everything you need for an **easy to use** fuel or pump management system.

DataPak Software©

Built to improve your ROI. The family of FLOWrangler products uses DataPak software. Data is transferred into easy-to-read, easy-to-understand reports that can be used with Microsoft Excel® or other popular business software.

We'll teach your personnel how to use the software. It's easy to learn and easy to use, so your staff will have no trouble with using DataPak software, regardless of their experience level.

Example of collected data in an Excel Format:
